By Alexis Echeverria

What Defines Me

I want to grow up and be able to help people grow in some type of way. I want them to learn something from what I do or what I say.

Interests

Social

People with Social interests like working with others to help them learn and grow. They like working with people more than working with objects, machines, or information.

Enterprising

People with Enterprising interests like work that has to do with starting up and carrying out business projects. These people like taking action rather than thinking about things.

Artistic

People with Artistic interests like work that deals with the artistic side of things, such as acting, music, art, and design. They have creativity in their work.

Clifton Strengths

My Top 5 Strengths

- Adaptability
- Strategic
- Developer
- Communication
- Includer

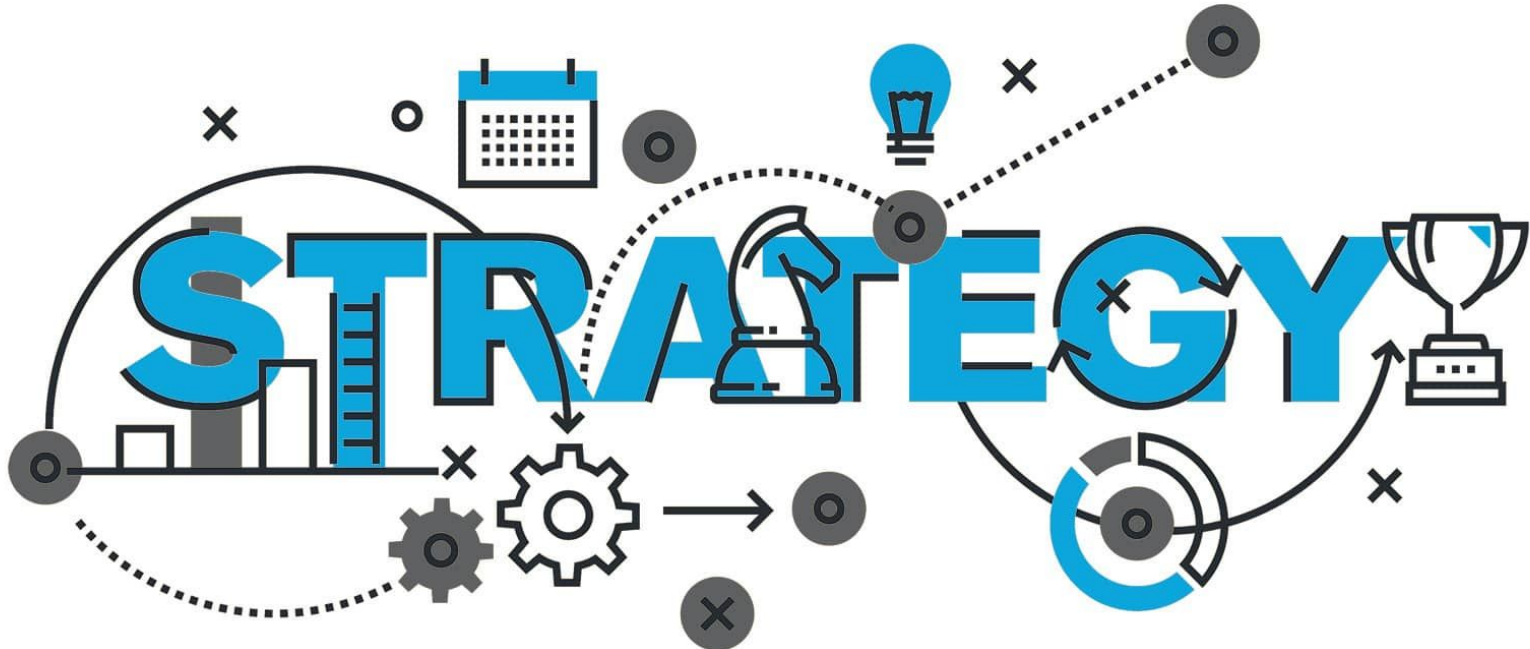

Adaptability

I prefer to “go with the flow” and take things as they come. I live in the “now.”

Strategic

We find an alternative way to succeed and move forward. Given any scenario, we quickly spot the relevant patterns and issues.

Developer

Developers recognize every bit of potential in another person. We spot the small improvements and “derive satisfaction from these improvements.”

Communication

People who are good at communication are usually good at putting their thoughts into words. They are good conversationalists and presenters.

Includer

People who are especially talented in the includer theme are accepting of others. They show awareness to those who feel left out and make an effort to include them.

Opportunities

Film & Video Editor

This ties in with the strengths “Communicator” and “Strategic” because I would need to communicate with my partners and find out how to fix a problem.

Secondary School Teacher

Secondary school teachers instruct students in junior and senior high schools. They conduct classes in academic subjects, such as English and mathematics.

Lawyer

My last opportunity would be Lawyer, and it would be included with Communication so I could talk to my person, Strategy because I would have to find a way to save him, and Adaptability just in case the other lawyers bring up points so I can bring up better ones.
